William David Horton, among the first of the Milam county men to give his life in action at the outbreak of war in December 1941, was aboard the battleship, West Virginia in Pearl Harbor.

Horton, affectionately and more widely known as "Demp Horton," was the son of Mr. and Mrs. J. L. Horton who reside on their farm on Route 3, out of Rockdale. They have two other sons in the Navy.

J. L. Horton, a brother of Demp was aboard the battleship West Virginia also when the Japs struck at the American Pacific base.

Demp Horton was offier's barber aboard the ship. He died from burns two days after the attack. The West Virginia, at anchor when the attack came, now lay at the bottom of the harbor, practically all of her officers and crew dead or wounded.

Mr. and Mrs. Horton have received the Purple Heart, a decoration awarded posthumously by the Navy Department to Demp who gave his life in the first battle of the war.

After the West Virginia was lost J. L. Horton was transfered to the crew of a heavy cruiser.

Mr. and Mrs. Horton received a letter from their son J. L. dated Dec. 27, 1943. He participated in the battle of Wake Island and later saw action when the Navy landed marines in the Gilberts.

The citation in which the Purple Heart was awarded posthumously for Demp Horton, is dated December 2, 1943. A letter from Randall Jacobs, Chief of the Naval Personnel, was also received. Here is the text of the Purple Heart award:

Mr. Hicks said that reports are yet to be received and the figure may well be over the Defense council mark.

It was believed the city would exceed the quota but was taking its time. Rockdale had oversubscribed by about 13 thousand dollars.

HICKS THANKS PEOPLE FOR WAR LOAN RESPONSE

Chas. M. Hicks, director for the 4th War Loan in Milam county, has issued the following statement to the people of Milam county, thanking them for their response to the appeal for financing the war:

"The people of Milam county should be proud of the record they have made in the Fourth War Loan Drive. The quotas set by the Treasury Department for the County have been met and when the final reports are in we will have exceeded our E bond quota and our over-all quota by large margins. Recently reports throughout the nation indicate that E bond quotas have been lagging, and it is gratifying to know that Milam county is over the top on February 15th. It should be remembered that all E, F, and G bonds sold and processed through the Federal Reserve Bank at Dallas by February 29th will count on this drive. For this reason it will be after March 1st before final tabulations for each voting box can be made.

"I want to take this opportunity to thank every one for putting Milam County over the top. Those of you who have bought bonds, and those who have sold bonds deserve special commendation. Your efforts have been exceeded only by those of our boys and girls in service."

2800 TONS EXPLOSIVES DUMPTED IN 30 MINUTES

Berlin, already a stricken city, suffered the greatest aerial blow in history when Britain's great bomber fleet deluged it with over 2,800 tons of explosives in 30 fiery minutes Tuesday night. Close to 1,000 planes, most of them four-engined heavyweights, participated in the assault on Hitler's crumbling capital.

Smoke rose four miles high from the heart of the city, which now has been blasted by around 28,000 tons of bombs since Nov. 18, when the RAF began its methodical destruction. Travelers reaching Sweden yesterday said a block buster bomb demolished the famous Bristol hotel on Unter Den Linden and that 2,000 dead had been taken from the ruins. The British lost 43 bombers from this and other night operations.

A total of 3,366 bombers — 997 American and 2,369 British—was lost over Germany and northern Europe in operations from British bases during 1943, it was announced in London.

For the second straight day, American invader fighter-bombers smashed railroad yards in Rome, indicating that the Allies at last had launched a serious campaign to halt the flow of German troops and supplies through the Italian capital to the figthing fronts.

Gen, Sir Harold Alexander, commander in chief of Allied ground troops in Italy, declared in no uncertain terms that the Anzio beachhead not only would be held but that American and British forces there eventually would smash through the German ring and march on to Rome, 20 miles away.

The general, annoyed at gloomy reports from the landing ground, said "We are near the end of the second round and we are winning it. The Germans realize they've lost the battle." At the same time, it was announced the Nazis had won possession of the village of Carroceto, 10 miles north of Anzio beach, after days of fierce fighting.

Aerial photographs showed that Mt. Cassino monastery was demolished by Tuesday's concentrated attack by American bombers and artillery—only a piece of one massive wall left standing. The Nazis, however, still fought desperately from scores of steel-and-concrete pillboxes on the slopes of Mt. Cassino and among the shattered buildings of the town of Cassino at its foot.

Two Russian armies, driving from the north and northeast, punched toward the important communications center of Pskov at the gateway to the Baltic states, capturing two score more towns and hamlets. A return of zero weather after an unseasonal thaw in that sector gave the Soviets renewed zest for their task.

In the Dnieper bend, the death struggle of remnants of 10 Nazi divisions trapped in the Cherkasy pocket neared its final stage.

Although their situation was hopeless, the Germans were fighting to the last for every ravine and clump of woods. The German people have not been told of this disaster.

Funeral services for Mrs. Frank Thomas, 88, were held Wednesday in the Methodist church at Gause by Rev. Whitfield, pastor of the Hearne Methodist church, officiating.

Mrs. Thomas died at 8 p. m. Tuesday, February 8, 1944, at her home in Gause.

ALLIED FORCES FACING ROME BRIDGHEAD CRISIS

If reports can be relied upon the Allied army is facing a crisis on the Rome bridghead.

The Germans were throwing all possible strength against the badly battered 5th Army units, said an early broadcast Saturday.

A British newspaper correspondent went so far as to say that we are facing reverses in Italy that may prolong the war. If so, the Mediterranean command needs a shake up. The millions of men under arms in the camps and on the British Isles could help that pitifully small number who were thrown in on the Rome beach head.

Since the story of Jap atrocities was twisted into an appeal for the sale of bonds, it was believed the gravity of the Italian fighting might be mitigated when the bond goal is reached. That was the opinion of a few who spoke out. The more likely truth is that the fighting is tough and the Allied command, since taken over by the British cannot think in terms larger than a single division. A million men thrown at the Germans in Italy would make a difference in battle results.

The fighting raged in a storm that swept the area south of Rome.

Twice in as many days American planes have bombed Wake Island. Here a small detatchment of Marines held out for days in the beginning of the war. Indications were Wake will be retaken soon.

A request for furnishings for day rooms has been made to the Red Cross Central Texas Camp and Hospital Council from McClosky General Hospital, Bryan Army Air Field, Blackland Air Field, Waco Army Air Field, McClosky Waco Annex, North Camp Hood and South Camp Hood.

These furnishings are needed for hospital sun rooms, for lounges, and for recreation rooms where patients and active soldiers may find helpful atmosphere.

Each of the 18 counties in the Central Texas Camp and Hospital Council is being asked to supply furnishings in proportion to the population of the county.

Milam county has been allotted the furnishing of two day rooms consisting of the following items for each room: One piano and bench, two magazine racks, four smoking stands, one settee, one davenport, two large chairs, two card tables, one floor lamp and one table lamp. A new coffee table, two library tables, one pool table, and one ping-pong table are also needed.

If you have any of these articles which are in good condition, and, if you would like to make patients and soldiers feel at home and comfortable with them, kindly contact Mrs. F. C. Fahrendorf of Cameron.

E BOND TOTAL FOR COUNTY IS $203,320

Milam county citizens—small investors—Thursday had subscribed more thantwo thirds of the 4th War Loan quota, it was disclosed by Chas. M. Hicks, county chairman.

Many communities lack considerable reaching quotas but reports are not complete. Others have exceeded their quotas by wide margains. The more than two thirds of the 4th War communities of Marak, Ben Arnold, Burlington, Marlow and Rice School House are all over with nice margins.

Cameron was still short by around 20 thousand dollars. Buckholts with a quota of $20,000 had reported only $5,543 sold.

In the succeeding issue of the Herald the totals by each community will be published. The quota in E bonds for the county is $301,000.

STATE HEADQUARTERS REPORTS TO HICKS

Milam county was near its goal Monday in the sale of E bonds with a total of $266,925.

The state headquarters in Dallas set the E bond quota for Milam at $274,000 but the Defense Council at the beginning of the 4th War Loan drive voluntarily made the quota $300,000 in order to purchase a flying fortress.

Confusion has caused much delay in reporting the facts about the bond drive. Chas. M. Hicks, county chairman, was able to obtain these figures Monday from the office of Nathan Adams, state War Loan Director in Dallas. The figure is some $55,000 higher than the records in Mr. Hicks' office disclose.

The sale of E bonds means purchases by small people, those who fight the wars and produce. These sales do not include negotiable bonds invested in by brokers and commercial investors. Figures showing the amount of such bonds bought in Milam or bought through Milam or bought elsewhere and credited to Milam are not available.

When the final government report was in on total sales of all types of bonds in the 3rd War Loan is was disclosed that a grand total of $16, 803,488 was purchased, negotiated or credited to Milam.

The figures published Friday in The Daily Herald are considerably lower than a telegram from Nathan Adams to Chas. M. Hicks, dated February 8th, disclose.

Mr. Hicks said that all bond sales processed through Federal Reserve Bank by February 29th will be credited to the 4th War Loan.

Have a Coca-Cola=Here's to old times

...or welcoming home a sailor son

These days there can be more real welcome in a snack shared in the kitchen than in many an old-time banquet. And with ice-cold Coca-Cola to add refreshment, you have all the makings at hand for a good time. As our men in camp and overseas so often tell, in all the world there's no more cordial invitation than those three familiar American words, *Have a "Coke"*. At your icebox, the same as in P. X.'s around the globe, Coca-Cola stands for *the pause that refreshes*,—has become the global symbol of American hospitality.

From where I sit . . .

by Joe Marsh

Sure's a lot of talk going around nowadays about post-war planning...folks passing resolutions . . . statesmen holding conferences . . . governments making promises to each other.

But as Bert Childers says: "What good is all this drawing up of plans unless each one of us decides to make his corner of the world a better place to live in?"

From where I sit, Bert's put the problem in a nutshell. Governments can pass all the resolutions and make all the treaties they can think of—and it's still up to the *people* themselves to see to it that the world is ruled by tolerance and understanding.

Unless we make up our minds to respect the other fellow's rights and liberties—whether it's the right to enjoy a glass of beer occasionally or the right to vote according to our conscience—all our post-war planning won't be worth the paper that it's printed on.

"Hats off to Studebaker for cars that stand up in wartime"

SAYS W. M. Byrd, engineer on a U. S. Navy job at Bay City, Michigan: "My hat's off to Studebaker. You're certainly right when you say the Studebaker Champion is engineered to save an owner money and built to withstand hard punishment.

"I know. I've owned three Champions. The one I'm now driving, a 1941 model, has 31,000 miles on it and its tires look good for 30,000 miles more.

"My two previous Champions gave me remarkable mileage over rugged West Virginia mountain roads.

"On the three Champions, my total maintenance bills, outside of proper servicing, did not exceed $40."

Mr. Byrd's experience, after two years of war, is matched by that of many other Studebaker owners.

To The People of Cameron:

On Tuesday, February 29th the run of primary election will be held in the race for City Mashal.

In the first primary election on February 2nd you gave me a splendid plurality vote, enabling me to lead by a substantial figure my three opponents.

I want the people to know how much I appreciate this expression of confidence. I appeal to my friends and to all the people to go to the polls and vote on Tuesday, February 29th. I solicit the votes of those who voted for the defeated candidates, assuring each one I will greatly appreciate their support.

I want to serve the people in this important office. It will be my first elective term as I was appointed to fill out the unexpired term of the late, lamented Gene Smith.

Please keep in mind the date of the February 29th. I pledge you that I coming election which is Tuesday, will be found at all times serving all the people and will meet every expectation of the people by a new deal in law enforcement in Cameron.

DAN LUNSFORD,

CHRISTIAN SCIENCE SERVICES

"Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 20.

The Golden Text is: "Behold, God is mighty, and despiseth not any: he is mighty in strength and wisdom" (Job 36:5.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Great is our Lord, and of great power: his understanding is infinite." (Pslams 147:5.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine metaphysics, as revealed to spiritual understanding, shows clearly that all is Mind, and that Mind is God, omnipotence, omnipresence, omniscience,—that is, all power, all presence, all Science. Hence all is in reality the mainfistation of Mind." (Page 275.)

OXSHEER SMITH WRITES APPEAL TO BELL COUNTY

Milam county's total purchase of bonds of all issues in the 4th War Loan Friday stood at $1,601,430.75 it was announced by Oxsheer Smith, President of the Citizens National Bank and Treasury Representative in the counties of Milam, Bell, Robertson and Leon.

With characteristic eloquence Mr. Smith has written an appeal to Bell county to come up with the other counties. Mr. Smith coins a choice bit of historic phrase to praise Milam and to urge upon Bell the need for reaching her quota.

Only the series E bond quota was lagging in reports, he said. The total figure for over all buying gives the county a total investment which exceeds the figure set for the county in all types of bonds.

Here are extracts from a letter to T. S. Wyche, chairman for Bell county, and written by Mr. Smith:

"Your report of bond sales through February 5th gives me a feeling of confidence that your county will exceed its quota before the drive is over.

"It is disappointing to Texas, and I know sickening to you, to learn that Bell County is so slow in reaching its bond quota, for has it not only heard of the sickening Japanese atrocities "The March of Death," and the brutal slaying of our boys in prison camps but in addition has in its very midst the great McClosky Hospital filled with our wounded and maimed soldiers whose very living is saying to Bell County "We are doing our part —are you doing yours?" and in the language of Major Hartini, a veteran of tewnty five air battles over Germany ask yourself, "What have I done that a mother's son should die for me tonight?"

"It puts a hard lump in my throat when I dwell on the thought that we are all slackers—merely playing with what we should do. My county has taken only 68 per cent of its E Bond Quota, but rapidly approching its over all quota. In this connection, I confindentially remind you of an incident of the battle of San Antonio in Texas' war for freedom when Ben Milam issued his challenge, "Who will follow old Ben Milam into San Antonio?" Milam County, named after that truly great hero echoes his

TO HELP YOU...

Take Good Care of Your Gas Range Here are 7 Suggestions

Just because your gas range is built to last many years is no reason why its care should be neglected. You want to make it last and keep its performance at a high standard of efficiency for new ones will not be plentiful until the war is over and the peace is won.

1. Do not put wet dishes directly on the enamel. (This enamel is glass.) Protect top with asbestos mats.

2. Wipe off spilled foods at once, with dry cloth. Later when range is cool, clean with damp cloth.

3. To clean top burners of aluminum or enamel, use mild soapsuds; rinse and dry. (Do not boil in soda solution.)

4. To clean broiler grill, let cool before washing with soapsuds; use fine steel wool. (Remove grill and pan from the range, as soon as food is taken off.) Whenever possible, use only a moderate heat for broiling, and you will find the broiler easier to clean. (Many foods broil well with a moderate heat.)

5. The oven-lining will last longer, if you roast meats at low temperatures (250° to 325°). It makes better-tasting meat besides, and also cuts down grease-spatter on oven-walls.

6. To clean up spill-overs on oven-floor, let cool, and then use a fine steel wool.

7. Don't load the oven-door with heavy roasts, as you put them in or take them out. It might warp the door.

"Best Foot Forward" Delightful, Colorful Opens Cameron Thurs.

Hollywood invades the campus of the Winsocki Military Academy with hilarious complications when Lucille Ball attends a prom at the invitation of Tommy Dix in M-G-M's Technicolor musical, "Best Foot Forward," which openes Thursday at the Cameron Theatre.

It's a publicity stunt for Lucille Ball and her press agent, William Gaxton, when they accept Tommy Dix's invitation to the dance, but it's no joke to Tommy when they accept. For Tommy, confident that the glamorous Miss Ball would not appear has also invited his best girl, Virginia Weidler. When Lucille arrives Tommy is unhappy, and when Virginia arrives on the scene to nurse him through his "illness" Tommy is more than just unhappy, he's miserable.

Complications set in and the fun flies thick and fast to the tuneful melodies supplied by Harry James and his Music Makers. Incidentally, Harry does a dance for the first time on the screen with Nancy Walker filmdom's freshest young comedienne.

Mrs. Wilna Ramsour left Cameron Monday to visit her sister, Mrs. J. B. Kreusch in St. Louis, Mo.
